## Sales Specification Sheet

### Triethylenetetramine

|            |                      |
|------------|----------------------|
| CAS number | Triethylenetetramine |
| EC number  | 90640-67-8           |
| TSCA       | 292-588-2            |
|            | YES                  |

| Item                       | Specification                       | Analytical Method |
|----------------------------|-------------------------------------|-------------------|
| Appearance                 | Clear and free of suspended matters | TS-Amine-001A     |
| Color (APHA)               | 50 Maximum                          | TS-Amine-002A     |
| Specific Gravity (20/20°C) | 0.979-0.984                         | TS-Amine-005D     |
| Distillation range (°C)    |                                     | TS-Amine-006      |
| 5% Boiling Point           | 260 Minimum                         |                   |
| Drying Point               | 290 Maximum                         |                   |
| Amine value (mgKOH/g)      | 1410-1480                           | TS-Amine-007A     |
